ArdentSword (The magazine) "This is the 1st Fantasy RPG that I am playing for a while, and I am really enjoying it, but before I could continue I was already interested in the story. After purchasing it, I did not know what to expect since the story tells in fragments, but the story was definitely enough to draw me into the world and make me think. The art is amazing, sometimes it doesn't look like a Japanese animation, it doesn't seem like it could be an actual game, but it is! It shows a lot of details. The map is interesting, it's like the rooms are alive and have their own life. It's a little difficult to complete the game when you keep exploring the map. It's a little repetitive to be there too many times, but if you get the hint you will surely be able to see what the game wants you to be able to do, and the hints are provided in the map. The characters were well developed, they were very interesting since the beginning, there were many character combinations, the battles had a lot of depth, and just when you thought you had defeated him, a new enemy showed up! The music was good too, however it makes the game looks a little old school and it was a bit too loud and did not have the rhythm that I liked. At the end of the day I hope the developers are listening to the comments and reviews they get, because I would be upset if I bought a game and realized that the name of the soundtrack was not good for what the game is. I am enjoying it very much and once again I recommend it to all Fantasy RPG lovers." Kotaku "...The original adventure RPG was released for the Playstation 1, and it seems like Fantasy RPG isn't a genre that's going anywhere. And no matter how many fantasy worlds and characters we see pop up in our games, I think most of them feature a medieval kind of setting. But the days of that type of game are over." C9 "...Over eight hours (in a 16-bit RPG) is a bit much for a game designed more for side quests, interactive story bits and the odd battle, but I really enjoyed interacting with the world around me."
